

Best friend quiz

Host rules / Keep this page

2 players / 10-15 min / 32 original prompts

Choose one person to be the subject for the whole round. They answer first, privately. Pass the device, let their friend guess, then reveal the pairs. A match is one point; skipped pairs never count. This is an answer-matching game, not a measure of friendship.

1. Choose who the round is about. That person answers every card privately.
2. Pass the device when the handover screen appears. Their friend guesses the same person's answers.
3. Reveal the comparison together. Swap roles for a new round if you like.

Always room for a pass

Either person may pass. A pair only counts when both people choose an answer.

On paper, use the lettered choices on the card sheets to fill in the answer sheet. Both columns refer to the same person. Keep the Self column covered until the friend has finished guessing.

Printing & privacy

Use Letter paper. Print single-sided at 100% / Actual size, one PDF page per sheet. Test one page first. Cut only the card pages; keep worksheets and bingo boards whole. Keep answers with their writers.

Original AI-assisted draft questions. Human English review, group playtesting, physical print quality, and duplex alignment are not yet verified. Planned durations are not measured outcomes.

Print check: measure these bars after printing at 100% / Actual size.
