4-16 players / 10-15 min / 32 original prompts

Ask a willing participant whether a square describes them. If they say yes, mark it; use a simple tick rather than collecting names. A row, column, or diagonal of five finishes your board. The middle square is free. Invite a new conversation after each mark when the group size allows.

- 1. Give each person a different board. Explain the free middle square and the right to pass.
- 2. Invite optional conversations. Mark a square only after someone chooses to confirm it.
- 3. Stop at the agreed time or the first line of five. Offer a seated or pair version for anyone who prefers it.

Always room for a pass

No signatures, proof, or personal explanations. Leave any uncomfortable square blank. Listening counts as taking part.

The PDF contains four reproducible boards, a full prompt list, and host rules. Online, choose Board or List view; both use the same 24 prompts and marks. List view opens by default on small screens. The seed recreates a board for the same setting and question revision.

Printing & privacy

Use A4 paper. Print single-sided at 100% / Actual size, one PDF page per sheet. Test one page first. Cut only the card pages; keep worksheets and bingo boards whole. Keep answers with their writers.

Original AI-assisted draft questions. Human English review, group playtesting, physical print quality, and duplex alignment are not yet verified. Planned durations are not measured outcomes.

Print check: measure these bars after printing at 100% / Actual size.
